### Class Description:

Decolorizing hair with control and confidence is The ultimate haircolor mastery. Understanding the 7 stages of blonding, proper lightening techniques, treatments, filling, and corrective toning will increase confidence everyday behind the chair. Becoming a master of blonding takes complete understanding of the principles of decolorizing. When working with blondes, we find ourselves in situations when the hair is too light, too dark, too orange, too yellow... what do you do? The proper product, technique and understanding of the principles will allow a quicker, more controlled lightening process for the guest and the stylist.
