Sweet As Sugar

After a couple conversations with Madison about her business needs, her overall brand image, and some of her challenges with accepting payments, Paystone tailored a cost-effective solution with the Poynt Smart Terminal.

"I didn't understand the entire payments industry before. It was all very intimidating. But with Paystone, it was so personable and so easy to get set up. And after they gave me a demo of the Poynt terminal, I knew I had to have it."

"It's extremely easy to use and I get non-stop compliments on it from my clients. It makes my business look more professional and it fits the elegance of my brand."
